PROFESSIONAL SUMMARY

Results-driven Data Analyst with 3+ years of experience transforming complex datasets into actionable business insights. Proficient in SQL, Python, Power BI, Excel, and statistical analysis. Experienced in building interactive dashboards, automating reports, optimizing business processes, and collaborating with cross-functional teams. Strong understanding of data modeling, ETL processes, and data visualization best practices.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Matplotlib)

Databases: SQL Server, PostgreSQL, MySQL

Visualization: Power BI, Tableau

Excel: Power Query, Pivot Tables, Power Pivot, Advanced Formulas

Cloud: Azure Data Factory, Azure SQL

Analytics: Statistical Analysis, Data Cleaning, Data Validation

ETL: Power Query, SSIS

Version Control: Git, GitHub

Other: DAX, Data Modeling, KPI Reporting

PROFESSIONAL EXPERIENCE

Data Analyst

ABC Retail Solutions | June 2022 – Present

Responsibilities

- Developed Power BI dashboards to monitor sales performance, inventory trends, and customer behavior.
- Automated recurring reports using SQL and Power BI, reducing manual reporting time by 70%.
- Wrote complex SQL queries involving joins, CTEs, window functions, and stored procedures.
- Designed star schema data models for reporting solutions.
- Cleaned and transformed raw datasets using Power Query and Python.
- Performed trend analysis to identify revenue growth opportunities.
- Worked closely with finance and operations teams to define KPIs.
- Conducted data validation and quality checks before report deployment.
- Created DAX measures for Year-to-Date, Month-over-Month, and Rolling Average calculations.
- Presented analytical findings to senior management.

Key Achievements

- Increased reporting efficiency by **70%**
 - Improved inventory forecasting accuracy by **18%**
 - Reduced dashboard refresh time by **40%**
 - Identified pricing optimization opportunities leading to **\$350K annual savings**
-

Junior Data Analyst

Insight Analytics Pvt Ltd | January 2021 – May 2022

Responsibilities

- Built weekly and monthly operational dashboards.
- Assisted in ETL development using SQL Server Integration Services.
- Created SQL scripts for business reporting.
- Performed data cleaning using Python and Excel.
- Generated ad hoc reports for management.
- Supported data migration and validation activities.
- Maintained documentation for reporting solutions.

Achievements

- Reduced manual Excel work by **60%**
 - Improved report accuracy from **91% to 99%**
 - Automated KPI reporting for five departments
-

PROJECTS

Sales Performance Dashboard

Tools: Power BI, SQL

- Built executive dashboard tracking sales, profit, margin, and customer growth.
 - Implemented drill-through pages and dynamic filters.
 - Designed star schema data model.
 - Created 20+ DAX measures.
-

Customer Churn Prediction

Tools: Python, Scikit-learn, Pandas

- Performed feature engineering.
- Built Logistic Regression and Random Forest models.
- Achieved **87% prediction accuracy**.
- Visualized model insights using Matplotlib.

HR Analytics Dashboard

Tools: Power BI, Excel

- Analyzed employee attrition and hiring trends.
- Created interactive KPI dashboards.
- Developed calculated columns and DAX measures.
- Automated monthly HR reporting.

EDUCATION

Bachelor of Science in Computer Science

University of Illinois

2017 – 2021

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate
- Microsoft Azure Data Fundamentals
- Google Data Analytics Professional Certificate

ACHIEVEMENTS

- Employee Excellence Award (2023)
- Best Dashboard Innovation Award
- Top Performer – Quarterly Business Intelligence Team
